## Summary

---

Worked as Salesforce developer and designer passionate about creating user-friendly mobile experiences, automating workflows, and visualizing data in impactful ways. With experience leading projects and designing intuitive interfaces, I'm eager to bring my technical and creative skills to a team.

## Experience

---

### Novigo Solutions Pvt. Ltd

Jan 2025 - Jul 2025

#### Salesforce Developer (Internship)

Mangalore

- Worked on LWC web components
- Apex, Triggers, Visualforce, Salesforce Admin, Soql, Sosl
- Worked on internal site modification and deployment in Visualforce
- Azure and Jenkins for deployment

### Akanksha Charitable Trust

Mar 2023 - Sep 2023

#### Application Developer (Internship)

Mangalore

- Designed and developed a comprehensive Flutter application from scratch, including user requirement analysis, UI/UX prototyping, and API integration.
- Transitioned clients from document-based to software-based data management systems.
- Implemented software across 1000+ Panchayaths, enhancing data management efficiency.

## Projects

---

- **Salesforce CRM Automation:** Automated lead-to-opportunity transitions using Flows, email notifications, and report generation in Salesforce. Created tasks, managed cases, built sales data visualizations, and implemented dashboards for tracking sales stages and performance metrics. Enhanced automation in progress [CRM Post](#).
- **Intern Productivity Suite (Salesforce Platform):** Developed a comprehensive intern management platform using Salesforce Lightning Web Components (LWC), Apex, and SOQL featuring secure email-OTP authentication, task assignment and tracking, leave management workflows, and file sharing capabilities with ContentDocument APIs. Integrated YouTube Data API v3 for learning resources and implemented real-time dashboards with analytics using cacheable Apex methods. Established CI/CD pipeline using Jenkins, Azure DevOps, and GitHub for automated deployment and continuous integration. [Github](#)
- **Grantha Mithra:** A rural education development program by Akanksha Charitable Trust and the Rural Development and Panchayat Raj Govt. of Karnataka. Developed a Flutter application from scratch, implemented in 1000+ Panchayaths to enhance data management efficiency. Available on [Play Store](#) and the GitHub repository [here](#). Technologies: Flutter, Figma, Jira.
- **Sudoku Game:** Collaborated on developing a Sudoku app and developed a Statistics Page focusing on UI design and data visualization. Implemented user metrics display using the Donut Library, with data sourced via Firebase Authentication and Firebase Realtime Database for real-time updates. Created a minimalist, premium design with smooth animations and gradient backgrounds for an engaging user experience. Android Native - JAVA, XML [Repo Link](#)

## Community Program

---

### Google Developers Students Club: Lead

Jul 2022 - Aug 2023

- Conducted 15+ Live Events, Collaborated with Industry Partners, Worked as Android Facilitator, Google Cloud Facilitator, Collaborated with NGOs

## Skills

---

**CRM Tool:** Salesforce(Triggers, Apex, lwc, visualForce,sosl,soql) **Programming and Development:** Flutter, Android Native, SQL, Python **Data Analysis:** Power BI, Excel **Collaboration and Tools:** Git/Github, Jira
